

The Gauteng Board Course (GBC) team is excited to present the **GBC Repeaters board course** for candidates who failed the June 2024 ITC and are writing the January 2025 IAC exam. You can register for the course on our website:

<https://www.gautengboardcourse.co.za/Home.aspx>

Registration is quick and easy

Register for the repeater course by selecting the appropriate “ITC Exam Attempt number”. There will be an option to choose “SAICA” for “Course fees payable by”. Choose “SAICA” if you obtained 160 or more out of 400 for your ITC June 2024 attempt. If you do not qualify for SAICA funding, you can still register for the repeaters board course, but should please indicate who will be responsible for payment of the fee (R5 400 including VAT).

Join our GBC repeaters launch on Mon 14 October at 18:00, even if you have not registered yet

We have our GBC Repeaters board course launch on Monday 14 October at 18:00. If you are not sure which repeater course to do, you can join our launch on Monday and then decide thereafter to register for the GBC Repeaters course. Please join our launch on Monday on the following Zoom link:

<https://tinyurl.com/37p7hehx>

Why choose GBC?

- The GBC is presented by **UJ CTA lecturers**. We have many years of experience in helping candidates prepare for the ITC exams.
- We are an **all-round team** and are experts in all required subject areas. We will therefore be able to assist you with all the necessary technical expertise as well as exam technique.
- UJ has consistently achieved **excellent ITC pass rates**, which proves our track record.
- We will send you our **board course file** (consisting of two lever arch files with content). The file includes our notes, summaries, slides and a question bank per subject. The board course file will be delivered to any POSTNET of your choice in SA.

- Classes will be fully **on-line on Zoom**. Our experience is that Zoom is a very user-friendly platform for on-line classes and allows for interaction via polls and the question function.
- We will **duplicate our Saturday classes to also be available in-venue (in person)**. You have a choice to attend our Saturday classes either on-line or in-person. The on-line group will have their own Zoom class on Saturdays as the same lecturer will present the class twice (once in-venue and once on-line). Our experience is that a hybrid class (on-line and in-venue group together in one session) is not ideal for the on-line candidates to interact with the lecturer. The Saturday classes are presented as follows:

	In-venue in JHB	On-line on Zoom
8:00 – 10:30	Subject 1	Subject 2
11:00 – 13:30	Subject 2	Subject 1

- We will have on-line **lectures on Tuesdays and Thursdays** from 18:00 – 19:30, which will include technical lectures as well as guidance on preparation to write integrated assessments under the new IAC exam conditions and feedback on the integrated mock exams (see below).
- Our lectures will include **coaching and guidance** to help you prepare mentally for the IAC.
- You will have access to our **MYPAL online platform** where you can post questions and view all recorded lectures. You can also view the previous questions raised by other candidates, including the answers provided by the GBC team.
- Our GBC repeaters programme runs for 7 weeks from Monday 14 October until 28 November. The course continues from 29 November as 1st attempt candidates (currently still enrolled for CTA) join the programme. You will therefore have support from 14 October until the IAC exams in January 2025 on one **continuous programme**, which includes the Repeaters programme AND the “traditional” board course offered to 1st attempt candidates from 29 November.
- We will release **two integrated mock exams** in November, aligned to the IAC 2025. You can write these mock exams in venue in Johannesburg or write it at home or any other place of your choice. We will provide detailed feedback and guidance on marking your mock exam attempt.
- Our programme includes a **guided self-reflection and review of the June 2024 ITC**. It is important that you review your June attempt and learn from mistakes.
- We present two lectures specifically focussed on **integrated thinking** and how to answer **integrated assessments**, with a focus on the IAC 2025.

Our detailed programme is provided below. The green shaded blocks represent our live lectures.

(ACC = Financial Accounting; MAF = Management Accounting & Financial Management)

DATE	DAY	TIME	DESCRIPTION
14-Oct	Monday	18:00 - 19:30	REPEATERS programme launch
